The Frick Collection

- **Mission**

Artstor is a **not-for-profit organization** committed to enhancing scholarship and teaching through the use of digital images and media.

Our primary goals are to **support educational and scholarly activities** by assembling image collections from across many cultures and eras

- **History**

The first phase of Artstor involved partners in China, France, the UK, and the U.S.

The next stage of Artstor's development required establishing a broad and deep enough collection to support teaching needs in colleges and universities.
